Postdoctoral Researcher, Chalmers University of Technology

Research member, [ENTAP](#)

Summary

I am a postdoctoral researcher at Chalmers University of Technology, focusing on analysing the empirical co-evolution of policies and energy transitions in comparison to what is required to mitigate climate change. I defended my PhD in May 2024 on political acceleration in energy transitions and received multiple academic awards, including the Best Dissertation Award and the Early Career Scientist Award. Prior to my PhD, I worked with the Japanese government and attended climate COPs as a national delegate, collaborating with many countries on negotiation topics, including developing long-term national transition targets and policies.

Employment

- 2024–present **Postdoctoral Researcher**, Chalmers University of Technology, Gothenburg
Analysing the co-evolution of climate policies and energy transitions
- 2019–2024 **Visiting Researcher**, NewClimate Institute, Cologne
Assessed progress of climate mitigation efforts in major economies (Climate Action Tracker.)
- 2014–2017 **Policy Researcher**, Institute for Global Environmental Strategies, Hayama
Participated in international negotiations (incl. COP) as a national delegate focusing on long-term strategy and global stocktake.
- 2009–2012 **Marketing Sales Executive**, SAP Japan, Tokyo
Conducted market analysis, assessed business performance relative to market leaders, and provided consultation services.

Education

- 2017–2024 **PhD (Summa Cum Laude) in Environmental Sciences and Policy**, Central European University (CEU), Vienna

Dissertation: Political Acceleration in Energy Transitions: Historical Interventions and Their Outcomes in the G7 and the EU, compared to Net-Zero Targets ([Download](#)).
- 2012–2014 **MSc (Distinction) in Environmental Sciences, Policy and Management (MESPOM)**, Joint degree from CEU, University of Manchester, Lund University, University of the Aegean

Thesis: Adherence to the Past or Hope for the Future?: The Historical Development of Japan's Energy Politics and its Implications for Future Nuclear Policy. ([Download](#)).
- 2005–2009 **BA in International Liberal Arts Studies**, Waseda University, Japan
Supplemented by a year exchange program at Kalamazoo College (USA).

Awards and Honours

- 2026 Best Paper Prize, Energy-PPG at ECPR General Conference
- 2024 Best Dissertation Award, CEU
- 2024 Early Career Scientist Award, *Energy Research & Social Science*
- 2023 Environmental Research Conference 2023 Most Highly Rated Poster Award
- 2022 CIVICA Research Conference Poster Award
- 2019 CEU Award for Advanced Doctoral Students
- 2017–2023 CEU Doctoral Scholarship and Supplementary Grants
